## GRAPHIC DESIGNER

Dear Hiring team,

I am writing this letter to express my excitement about my interest in this position. As a recent graduate with almost 1 year of professional graphic design experience, I've developed a unique set of strengths, including logo design, brand strategy and illustration, with the promise of delivering detailed and engaging work. I'm always extremely motivated to challenge myself in learning new things along the way, but most importantly help express ideas and messages of individuals across different platforms. Past experiences have given me:

- A working knowledge of Photoshop, Illustrator, InDesign, AfterEffects and HTML
- Opportunities to participate in brainstorm sessions
- Worked with a few clients as a freelancer

Sincerely,  
Betul Yalcin
